Tricked and Tortured

A man loyal to the Brotherhood, Winston Smith, who strived to disobey the Party's policies, has today been captured. The revolting Mr. Charrington, slyly gaining Winston's trust, exposed Winston's subversive acts. Along with Smith, his lover, Julia Dixon, was also captured, for engaging in lovemaking and conversing with Smith. Mr Charrington, who later revealed himself to be a member of the Thought Police, organized transportation for Smith and Dixon to be sent to a bunker of the Party, likely to be punished and tortured.

Using previous knowledge, we know that the Party uses one's worst fears against them. It is likely that this will take place in the infamous ROOM 101.

Although we are unsure about what will happen to them, we realize it will be brutal, for them and for us, and we assure you, the Party shall not go unpunished for treating our fellow brethren this way.

In addition to physical torture, we are aware that the party utilizes the theory of brainwashing to further cripple their victims. A common example of this vile practice of psychological torment is convincing its victims that two plus two is five. They remember nothing of their previous past. Memories of past events and relatives are at risk of being lost forever. Smith and Dixon will forget who they are, and might

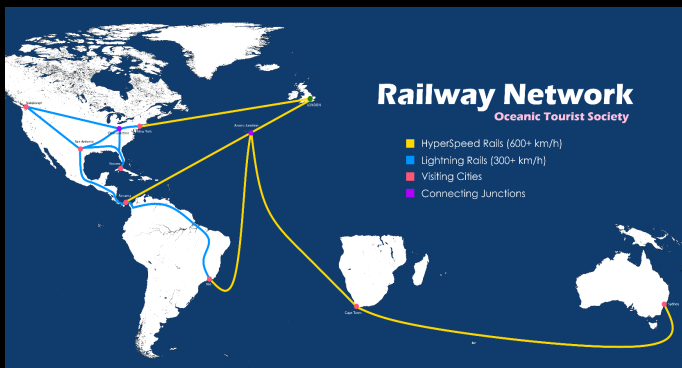

turn on the Brotherhood. The brainwashing might lead to them joining the Party. Fellow brethren, we cannot let this happen.

Although we are almost certain that Smith's torture will take place in ROOM 101, we are unsure about how the Party plans to deal with Dixon. We do not have any knowledge about whether or not the party grants women with a more lenient approach, however it is unlikely that they will. May Smith and Dixon stay alive. They have our support.

Task Force Assembled Against INGSOC

BROTHERHOOD SUPERIORS HAVE DECIDED TO TERMINATE THE PARTY'S NEW RAILWAY SYSTEM

Through a series of investigations, we have discovered that the party has constructed a railway system to, quote unquote, reward members of the party by taking them on luxurious trips all across Oceania. We plan to stop this, because we, along

with our fellow brethren, aim to prove to the world that this is a massive ruse. We will be conducting several operations to demolish the Party's systems and railway tracks, thus destroying their evil stratagem. We shall eliminate their opportuni-

ties to utilize high speed trains to reach different destinations in Oceania.

As we have agreed, no weapon shall be used from which a life can directly be taken. We will assemble a task force that will, routinely conduct operations to sabotage the railroad tracks. This will, in turn, derail train wagons and show the population that this was a failed project.

This will encourage more people to turn towards the Brotherhood and abandon INGSOC. With this, we will be growing, fellow brothers. We must work together. Together, we can destroy the Party and punish them for the pain they have caused us. Together, we are strong.
