

The Oceanic Tourist Society

Official Letter of Opening from the President

July 1, 1990

Dear all Inner-Party members,

The Oceanic Tourist Society (OTS) is a community organisation consisting of volunteers, staff, and members, all looking to experience the luxuries of life in Oceania and visit parts of the State they may not yet have seen. Oceania is a vast and expansive land, with thousands of beautiful cities and landscapes waiting to be discovered.

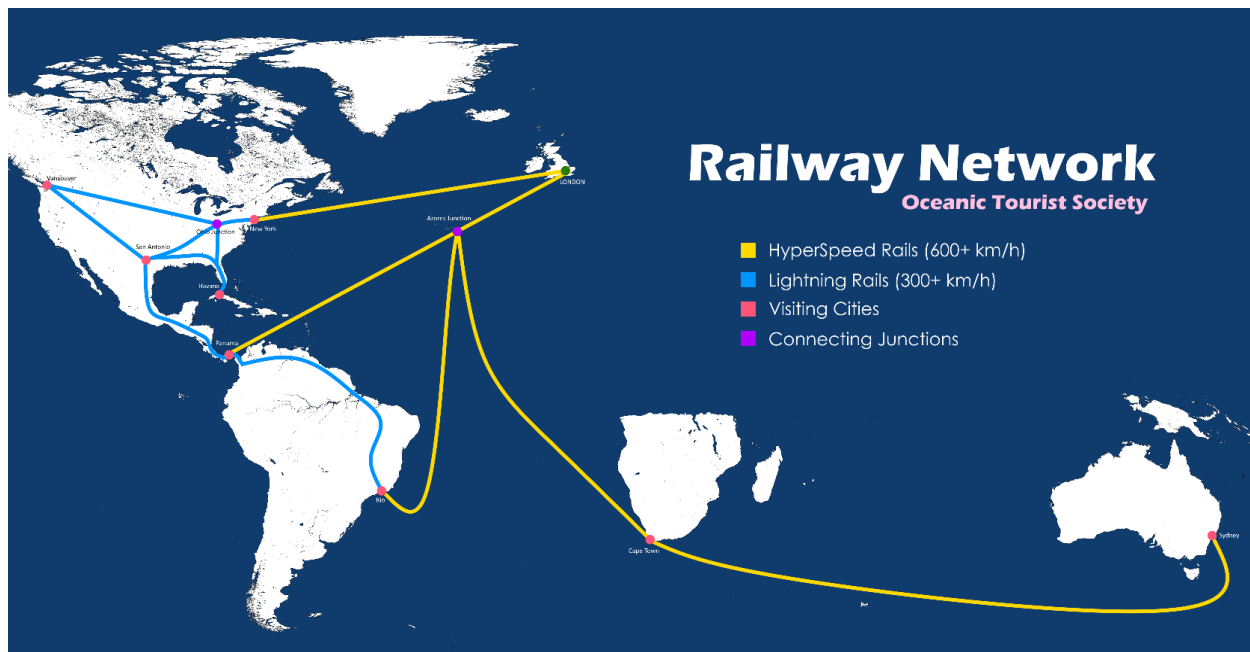

We aim to reward all the hardworking Inner-Party members of the Ingsoc community by providing them with inexpensive trips to many different locations all across the state. One of our main goals with this project was to enlarge the Ingsoc influence in Oceania, and with your help, we can!

Last year, all Inner-Party members could get one trip to any desired location for thirty per cent off. The available destinations were Dublin, Cape Town, Havana, Vancouver, Sydney and Rio de Janeiro. As modes of transportation, the OTS provided six luxury trains that ran day and night to provide the Party members with both comfort and punctuality.

That year, four hundred Party members took us up on our offer. Out of those four hundred people, three hundred and twenty recommended it to their comrades. Our success with the program motivated us to expand its range of locations further – and after a month of maintenance break, we achieved our goal. “Always, at every moment, there will be the thrill of victory, the sensation of trampling on an enemy who is helpless.” In this case, our enemy was money and time.

The OTS is exceptionally proud to announce that our train program is up and running and better than ever before. We have included twelve refurbished trains this year, all stocked up on supplies and comforts. We have also strived to achieve the enlargement of our railway system to include three brand new locations: San Antonio, located in the heart of Airstrip 8, Anchorage, in the frozen land of Airstrip 17, and the stunning New York, featuring monumental landmarks such as the Oceania State Building and the Statue of Big Brother.

Each of these new locations have unique experiences awaiting you and your comrades. In addition to three recent remarkable locations, you can travel in more style than ever, with the new and improved luxury beds, heated showers, highly comfortable couches and an “all you can eat” buffet. Is there something more? We’re happy to announce that yes, there is. Every once in a while, a revolutionary product comes along that changes everything. This year, Ingsoc is proud to present our newest and finest invention yet, the “**TrueTelescreen**”. There will be one TrueTelescreen per seat, and with it, you can watch anything you like in full colour.

As you can see on this map of the world, we have set up a large expanse of train tracks that reach the cities of Cape Town, Havana, Vancouver, Sydney, Anchorage, San Antonio, Panama, Rio de Janeiro and New York. This whole expanse of train tracks connects all these locations in one single railway system.

Critical locations from every continent are connected to our home base in Airstrip One with extremely fast, newly manufactured ProSpeed Rails, allowing for easy access from the heart and centre of Oceania.

And in addition, at every location, we have manufactured modernised train stations for the purposes of a comfortable arrival and departure. If you would like to explore the map in greater detail, please look at our home page's “Map” section.

This project has cost the OTS a significant amount of money. However, it was all provided for by Big Brother, our supreme leader, who has been captivated by our outstanding aim to spread our superior ways of life throughout the rest of the world. “Big Brother is infallible and all-powerful”. He is confident that our plan will succeed, and “There will be no love, except the love of Big Brother.”

Our excellent transport network means that no matter where you reside in the great state of Oceania, chances are that your nearest “OTS station” is just a few hours away. We have local agents in all major cities who can assist you with transportation options, organise group visits and aid in locating your nearest OTS station.

Moreover, from July 1 to September 15, all Inner Party members can get a ticket to two different destinations for a staggering **fifty per cent off**. This is an outstanding opportunity for Party members to visit new places, see how other regions operate within Oceania and spread the ideas of the Ingsoc way. This offer is available to Inner Party members because of their willingness to develop and support the Ingsoc ideology. Without your contributions to this society, Oceania would have descended into chaos, and there would be no order and no way to punish the criminals of society.

Now that the OTS is ready to begin anew, the first tickets for our three newest destinations will be available at 16:00 GMT on the first of July. As always, access to the remaining destinations will also be open. Anyone interested in the Inner-Party should buy tickets, get exploring, and spread the Ingsoc Ideology.

As the president of the OTS, I look forward to a new decade together and its opportunities to expand the society throughout the Oceanic region. We are looking forward to diversifying our locations to include natural sites, with a particular interest in the Grand Canyon Niagara Falls, among many more. In the future, we are aiming to provide at least four thousand Inner-Party members with trips around Oceania, and we look forward to seeing all the promising members of our great society flourish and expand our great ideology. Remember, “War is peace. Freedom is slavery. Ignorance is strength.”

Wishing all Party members the very best,

The President of the Oceanic Tourist Society
